

**ENGI E4000 PROFESSIONAL DEVELOPMENT AND LEADERSHIP
FALL 2017 COURSE SYLLABUS**

SECTION 10 FOR MS IN MANAGEMENT SCIENCE AND ENGINEERING

Instructional Team

Jenny Mak, Tamar Hofer, Chuck Garcia, Fred Garcia
Professional Development and Leadership Team (PDL) – pdl-seas@columbia.edu

Course Description

Columbia Engineers have outstanding technical competencies, analytic abilities and are skilled at working in a collaborative environment that embraces interdisciplinary thought. The Professional Development and Leadership course aims to enhance and expand Columbia Engineering graduate students' interpersonal, professional and leadership skills, through six modules, including: (1) professional portfolio; (2) communication skills; (3) business etiquette and networking; (4) ethics and integrity; (5) leadership, followership and teamwork; and (6) life management. Students in the course will build upon and enhance their interpersonal and intrapersonal skills to further distinguishing themselves in the classroom and in their careers.

Course Objectives

Students will engage, learn and share their experiences in order to make meaning of professional development and leadership. The students will:

- Gain knowledge, skills and experience that increase ability and motivation to effect positive change and contribute to society.
- Develop skills to launch your career, including business writing (resume, correspondence, cover letter), interviewing, cultivating a professional network, etc.
- Develop skills to succeed and grow your career, including communication, project/time management, and professional composure and appeal.
- Develop their leadership, followership and teamwork skills through learning, observing and reflecting on the domains.
- Provide the knowledge and experiential exercises to encourage ethical behavior and values.
- Gain familiarity to the US job market and career culture; recognize the skills necessary to compete effectively.

Grading and Preparation

The course is graded pass fail and the grade is given at the end of the spring semester. You will pass the class at the end of the spring semester, provided you:

1. **Attend and engage in all modules of the course.** Professional development is an engaging process. In order to develop and refine your career goals and approach, attendance and engagement are critical. The Instructional Team expects each student to attend, engage and prepare for each class. Lack of career preparation and development will lead to serious issues in fulfilling professional goals and course objectives. Non-enrollment and absence from the class are signs to the instructional team that the student is not interested in recruiting and career development. The student will be asked to withdraw from the class.
2. **Select, attend and engage in two elective workshops during the Fall and Spring terms.** Additional workshops will be offered during the fall and spring terms; these are designed to meet the needs and interest of the students. You are asked to select, attend and engage in two electives.
3. **Complete the required assignments in a timely manner.**
4. Fulfill your commitments to attend various events, including employer presentations, interviews, employer site visits, seminars, departmental events, etc. Part of demonstrating your commitment to professionalism, attendance and engagement in these activities are crucial. For more information on the Department's policy on Professional Commitment and Engagement, see: <http://ieor.columbia.edu/policy-professional-commitment-and-engagement>.

Office Hours

Communicated via Canvas.
